

Instructions for Downloading 2D Design (Student version) **Please note – you will need the instructions at the end of this tutorial to install the licence file**

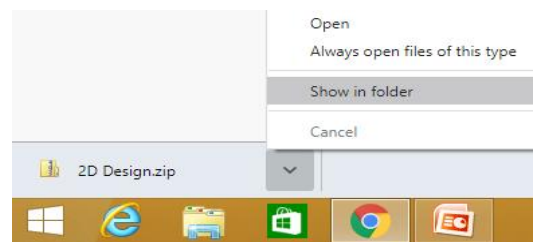

1. Follow the link from the website

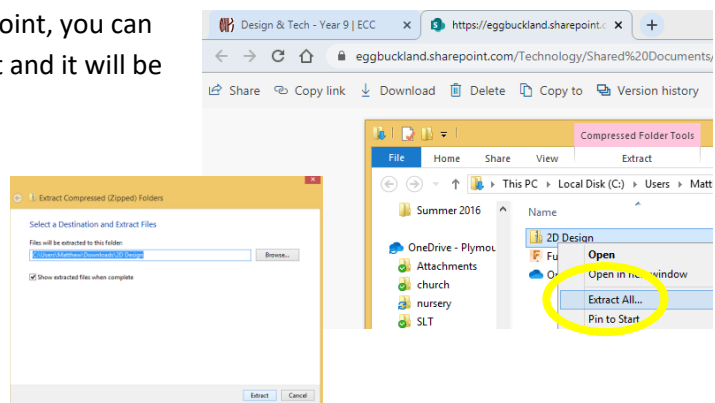

2. Download the zip folder

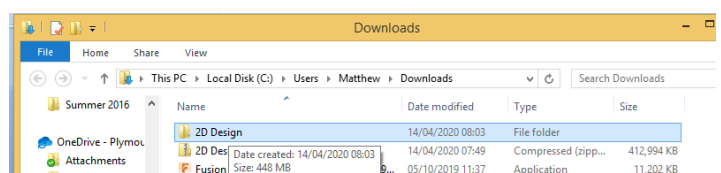

3. When Downloaded, the folder should appear in the bottom left hand side of your screen. Select show in folder

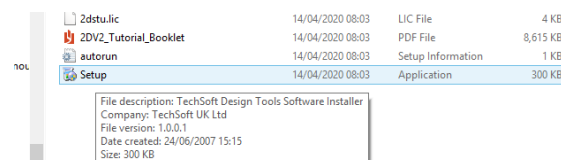

4. **Right click** and select **Extract All** At this point, you can change the location for the file, I have not and it will be extracted into Downloads

5. Open the file folder

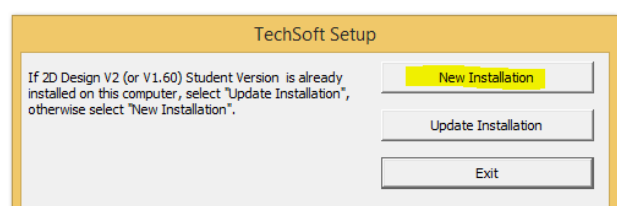

6. Select **Setup**

7. You might be prompted by your computer to make changes – select Yes or allow

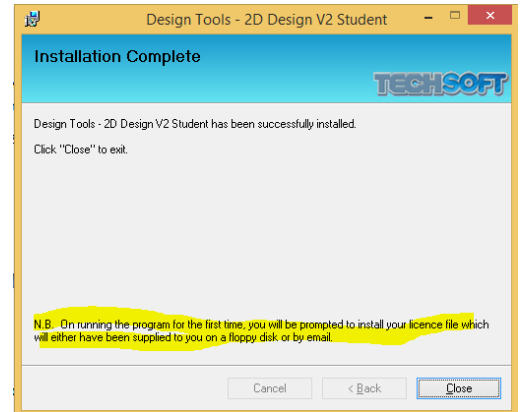

8. Select **New Installation**

9. Go through the installation prompts to install

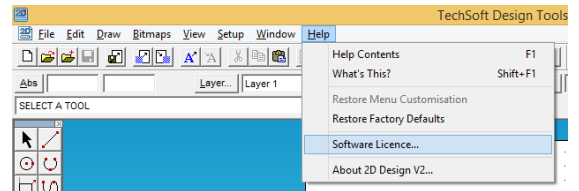

Installing the licence file

10. When installing the software you will be prompted that you will need to install the licence. This is needed to save your work

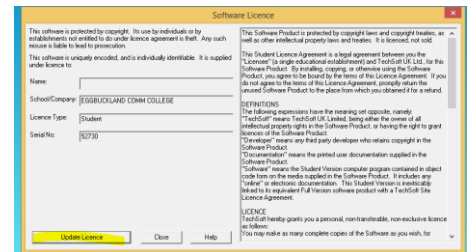

11. Open 2D Design

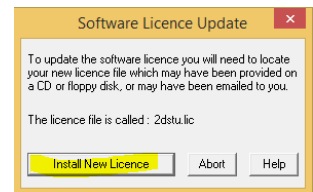

12. Go to **Help** then **Software Licence**

13. **Update Licence**

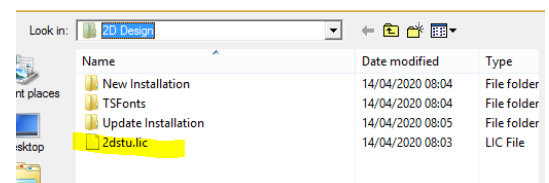

14. **Install New License**

15. Browse to the folder where you extracted the program. In my case this was in **downloads**

16. You need to find the file **2dstu.lic**

17. Then accept the terms of the licence

You can now save your work but not print. You can achieve a print by taking a screen shot using the Print Screen button or by printing when we return to school
