

Information Technology

VOCATIONAL

Level 2 & 3

Entry requirements

- You will need to enjoy working in an office environment and be able to work carefully and logically
- You will need to enjoy and be interested in Information Technology

Why choose this course?

The course will not only give you the skills to use software such as word processing, database, spreadsheets, Internet and Intranet, email, artwork and imaging, website and presentation graphics, but the confidence to use them in your workplace.

Information Technology affects all business sectors including entertainment, construction, education, primary industries, retail and manufacturing. In fact, most jobs are now affected by some form of Information Technology.

Information and communication technology (ICT) offers a large variety of exciting and challenging jobs that are not just confined to its own industry.
