

Year 7 – Identity

As a department we agree with the NSEAD who have stated that -

The NSEAD believes that a world class art, craft and design education provide and inspires personal expression, cultural understanding, creative and practical responses, promoting imaginative risk taking to provide solutions to our material, emotional, social and virtual worlds. A world class, art, craft and design education will engage, inspire and challenge pupils, equipping them with the knowledge and skills to participate in, experiment with, invent and create their own works of art, craft and design. Pupils should be able to think creatively and critically. They should investigate and evaluate a wide range of creative outcomes from the past and present to develop rigorous understanding of the many disciplines within art, craft and design and how they shape our history and future. This will enable pupils to contribute as confident citizens and future professionals to the culture, creativity, economic success, leisure, material and emotional wellbeing of our society within both national and global contexts

Students will start with a series of workshops to build their confidence in their drawing and painting ability.
